

THE GOULD BLUE AND GOLD

VOLUME VI—NUMBER 1

BETHEL, MAINE, OCTOBER 15, 1947

PRICE FIVE CENTS

Seniors Elect Class Officers

The officers for the senior class this year were finally elected and are as follows: President, Mike Brown; Vice-President, Mark Rines; Secretary, Ruth Judkins; Treasurer, Dick Melville. All the officers have been students here at Gould for four years.

Leland Brown, better known as Mike, lives in Bethel, where he operates a photo service; many of his customers are Gould students. Mike is a member of the Cyp Club, vice-president of the Camera Club, and he plays the drum in the school band.

Mark Rines, from Westbrook, is in Camera Club and the Science Club. He was manager of football and track last year.

Ruth Judkins, of Upton, was president of the freshman class of '48 and is now editor of the BLUE AND GOLD. She has been in Varsity Glee Club for two years, and Camera Club two years.

Dick Melville, of Lockes Mills, was vice-president of the freshman class of '48. He was a star miler last year, and this year is in track and on the first string in football.

The class of '48 has been rather inactive in the past, but with incentive there are high hopes that the seniors will really accomplish something this year.

UNDERGRAD. ELECTIONS CARRIED OUT

During the past three weeks at Gould the student body has elected a very capable group of students for the different class officers for the school year 1947-48.

The Junior Class elected Guy Emery, South Paris, as president; James Gordon, Farmington Falls, as vice-president; Uno Hertell, West Paris, as secretary; and Priscilla Shirley, Waban, Massachusetts, as treasurer.

The Sophomore Class officers are as follows: President, Dick Marshall, Lisbon Center; vice-president, Doris Wermenchuk, Bethel; Secretary, Laura B. Bennett, Bethel; Treasurer, Merle Noyes, Lockes Mills.

The Freshman Class elected David Kanaly, Bridgton, as president; Gary Melville, Lockes Mills, as vice-president; Eileen Linnell, Peru, as secretary; and Diane Fortin, Westbrook, as treasurer.

GOULD WELCOMES NEW TEACHERS

Besides the new students to be seen on the Gould campus this fall, there are new teachers also. Presiding in the Home Ec cottage is Miss Fish from Jonesboro, Maine. She is a graduate of Farmington State Teachers College and received her Masters degree at Simmons. The new Latin teacher is Miss Bowman, a native of Harrisburg, Pennsylvania and a graduate of Gettysburg College. In the math de-

FOUR TAKE PEPSI-COLA SCHOLARSHIP TESTS

On September 19, the senior class cast a vote for the two boys and two girls "most likely to make an important contribution to human progress" as candidates for the nationwide Pepsi-Cola Scholarship. Of these candidates, one girl and one boy from each state in the union is awarded a Four-Year Scholarship with tuition, traveling expenses, and other fees paid at any institution of the winner's choice. College entrance awards are given to the five runners-up of each Four-Year Scholarship. Those selected by the senior class to take the preliminary tests on November 21 are Gertrude Penner, Ruth Judkins, Lee Dymont, and Edwin Swain. If any of these students place among the fifteen highest in the state, they will be among the finalists to take the Scholastic Aptitude Test of the College Entrance Board on January 24, 1948. One boy and one girl receiving the highest scores on this test will then have won the Four-Year Pepsi-Cola Scholarship.

partment is Mr. Richardson, who hails from Westfield, New Jersey, and who graduated from Middlebury. Here this year to help Dr. Boynton is Dr. Matheson, New York, who claims Brooklyn University as his alma mater.

Miss Fish is very agreeable about sewing letters on either boys' or girls' sweaters at almost any time. Miss Bowman arrived late, filling Mrs. Dyer's substitute position in Latin. Mrs. Dyer is head of the library, and will help to straighten out the work there.

INDIAN SUMMER SEES PARENTS' DAY SUCCESS

On October 11, 1947, Gould Academy held its annual Parents' Day, the main feature of which was the football game with St. Johnsbury. The night before, in anticipation of the game, a snake dance and a rally were held. The band played during the snake dance and on the way to the bonfire which was built below the tennis courts in back of the girls' dorm. The cheerleaders led songs and Mr. Ireland, the coaches, and Captain Bennett spoke. Following the rally there was an informal dance in the gym.

The football game began at two o'clock with the bleachers on both sides filled. An added feature was the broadcast of the game over loudspeakers by Dick Dysart. During the half there was an exhibition football game put on by the "Cookie Pushers" and refereed by Mr. Thompson. Although St. Johnsbury scored first, Gould won the game by a score of 12-7. After the game

NEW CHEERLEADERS CHOSEN THIS FALL

With the advent of fall, and the football season, comes the usual preparation for cheerleader tryouts. After much practice and deliberation, the following girls were chosen—Marlene Anderson, Laurabelle Bennett, Wilma Croteau, Peggy Champlain and Barbara Crockett. Barbara Crockett was chosen head-cheerleader by vote among the cheerleaders themselves. To add to the squad this year are two fellows. This is something new in Gould cheerleading. They are Don Powers and Tim Terry, who will try their luck on acrobatic cheers and also add a great deal more lung power to the squad. The squad has been given letters for their sweaters this year, and have already adopted many new cheers.

while a tea was being held for the parents at the headmaster's home, there was a dance given in the William Bingham Gymnasium for the visiting team and students.

At six o'clock a "cook-out" supper was given behind the girls' dorm which the parents and students attended. That evening everyone went over to the gymnasium where movies were shown, contests between parents and students were held, a magic act was given by Bob Patterson, and ending the evening were a few dances.

CAMPUS IMPROVEMENTS

While many of us were enjoying a summer vacation, many improvements, such as the installation of fluorescent lighting in the study hall, typing and mechanical drawing rooms, and paint shop were made. These new lights are more than sufficient for studying purposes even at night, since tests with a light meter reveal that from fifteen to twenty foot candles (a measure of light) illuminate each desk. This is a wide margin over the minimum light for reading purposes, which is ten foot-candles.

The old sand tennis courts have been turf-coated.

The Garber home, at the lower end of the campus, was purchased and equipped with a new heating plant and other general improvements made for the convenience of Dr. John A. Matheson and family.

Also of great interest to sports teams, musical organizations and other clubs which frequently take trips, as well as those who ride to school by bus, is the purchase of a new Reo bus.

Additional improvements include the painting of the kitchen and the exterior of the Girls' Dormitory.

GIRLS' A. A. COUNCIL IN FULL STRIDE

The Girls' Athletic Association, capably directed by Wilma Croteau, its '47-'48 president, has held its first four meetings and is now making plans for the annual A. A. party to be held on November 15. Also this year the Council is tentatively planning to sponsor a contest to aid the cheerleaders in adding cheers to their present list.

The other members of the Council are as follows: vice-president, Bettie Backus; secretary and treasurer, Ann Lord; senior class representative, Connie Coolidge; junior class representative, Peggy Barton; sophomore representative, Doris Wermenchuk; hockey manager, Carol Swan; archery manager, Ann Cummings; tennis manager, Elizabeth Bailey; basketball manager, Martha Crocker; skiing manager, Nancy Crane; volleyball manager, Florence Pike; badminton manager, Carolyn Olson; softball manager, Adele Kimball; hiking manager, Gertrude Penner. The Freshman representative has not as yet been elected by the class.

The annual party put on by the council is usually one of the highlights of the season.

NINETY-ONE NEW STUDENTS ENROLLED

This year Gould has welcomed ninety-one new students into its midst. Among these are five veterans.

It is interesting to note that the new dormitory students come from widely scattered points of the United States; two from Connecticut, three from New Jersey, five from New Hampshire, seven from Vermont, eight from Massachusetts, one from California, as well as sixty-five from Maine.

There's a World Outside Gould

Several times since the beginning of the school year we have had brought to our attention in one place or another that we are extremely sheltered from world affairs here at Gould. A moment's thought will show us that this is true. The location, of course, is the main reason; Gould is not near any center of government or international affairs. In the freshman and sophomore classes not as much attention is given to world affairs. Most students do not follow the daily papers, and not too many listen to news commentators regularly. For juniors or seniors, however, there are current periodicals. Most of them are used from pure necessity; there is the general feeling that they are dry and dull.

To many of us, the last war was merely an inconvenience of daily life. Perhaps members of the family were temporarily separated, and there was not as much meat and sugar as before. Still, we were spared bombed towns, burned homes, entire families being wiped out, hunger, and invasion. We continued to go to school, to the movies, to church, while many young people used their minds to connive guerilla work, or risked their lives as spies.

We won the war. Yet we, as a nation which is trying to lead other nations, are forgetting all this.

The question of relief for Europe comes up under the Marshall Plan. First we think of politics and the taxpayers, forgetting the ravaged countries' need. The average person feels that he was patriotic during the war, but now that it's over, he's tired of it, and wants to forget. But we can't forget! We may say, "Well, what has this to do with Gould?" Our future, in fact, whether we have a future or not, depends upon decisions being made right now. It is our duty to know about these things. Before long we will be voters.

GOULD CLUBS REORGANIZED

This year Gould's music clubs, swelled in number, are off to a good start under Miss Griggs' direction. The clubs are as follows:

Choir: On Thursday evenings at 6:30 the choir holds its rehearsals for the following Sunday at the Congregational Church. The choir is a selected group of boys and girls.

Boys' Glee Club: The boys' glee club meets every Tuesday for their rehearsals. This year there are twenty-five members. Miss Griggs is planning to have the boys sing some morning in assembly soon.

Girls' Glee Club: This year the girls' glee club is exceptionally large; there are seventy-five members. They are very well-balanced and are singing three-part songs. The girls' glee club meets every Monday activity period.

Band: The band this year has several promising new members. Also there are four twirlers instead of two. They will play at the basketball games and other occasions; already we have heard them at the football rally.

Varsity Glee Club: Varsity is a selected group of upperclassmen, both boys and girls, singing in four parts. At the present

OPINIONS APPRECIATED

Just to start the new year off right, we have a very serious and important question to discuss in this column. Our inquiring reporter has been making the rounds with this challenging query: To what do you attribute your success with women (or men)?

Richard Spitz (Casanova, himself) said modestly, "Ah, gee, do you have to ask me?"

Dick Marshall, when confronted with the question, replied, "Well, it's like this. Most girls are stupid. When they see a handsome creature like me, they go crazy."

Sally Adams, just home from a day in Hebron, answered, "Men like me because I have always led a life of virtue. No swearing, no smoking, etc."

Jerry Davis, bashful as ever, replied, "My blond wavy hair focuses all female eyes on my head, when they detect my handsome face."

Robin Buck said, "I owe it all to my Ipana smile."

Jimmy Browne came back with, "Duz does everything"

they are working on two songs having eight parts. The varsity glee club meets every Thursday activity period.

The members of the Chapman Club chose Gertrude Penner, Bethel, as president; Florence Pike, Waterford, as vice-president; Lois Ann Van Den Kerckhoven, Bethel, as treasurer; and Jerry Linnell, Peru, as correspondence secretary.

Science Club officers are the following: President, Edwin Swain; Vice-President, Richard Bayles; Secretary, Barbara Crockett; Treasurer, Sally Adams.

The officers of this year's Camera Club have not yet been chosen.

Eleanor Gurney stated her troubles briefly with, "What success?"

Herbie Hunt said he thought it might be his tall, dark, handsome appearance, while Don Powers was sure it was because he could sing like Gene Autry.

Debbie Durivage was sure that the New Hampshire blood in her veins was the cause of it all and Bill Glover said, "Adler Elevator Shoes have done me a world of good."

Because of the many threatened libel suits, I think this column should close with the following notice: Any reference to any Gould Academy students, living or in love, is purely intentional.

GOULD GIRLS MAKE WASHINGTON TRIP

On Saturday, Sept. 26, a group of fifteen girls from the three upper classes, with Miss Stallwood and Miss Swift, went on the annual Mt. Washington trip.

After leaving Bethel at eight A. M., the bus arrived at the Pinkham Notch Huts at 9:10 and the climb started. When the group reached the half-way house, at the foot of the ravine, it was still quite cold.

Then the real climb started, for the girls began to climb Tuckerman's Ravine. The group stopped to eat lunch just before it reached the top of the ravine, when it began to snow lightly. After lunch the group forged ahead quickly to the top of the mountain.

When the girls reached the top they found that the summit house was closed to business, but they were allowed to go in anyway. While on the top they went through the weather station and saw the jet plane which is on the top of the mountain for testing.

After staying at the top of the mountain for about three quarters of an hour, the group started down.

The descent was made over the Lion's Head Trail, which seems to go straight down in places.

Coming down it snowed so hard that the ground was white and rocks became slippery. The Pinkham Notch Huts were reached about four o'clock. After staying at Pinkham for awhile, the party returned to Bethel where many of the hikers collected money which had been bet on the possibilities of reaching the top.

THE HEADMASTER'S CORNER

Always sorrowful, seldom sincere, alibi-ing but not excusing the missed opportunity, impending many a career otherwise bright with promise, keeping worthy men just short of success, robbing mankind of the unpredictable fruits of conscientious, well-planned human effort is that saddest of sad lamentations—"If I only had the time!"

"If I only had the time!" says the advancement-minded worker, "I'd study my job outside of business hours, and become better qualified for promotion."

"I'd increase my knowledge of mathematics, and get ready for examinations in advance—if I only had the time."

"I'd study up on my football signals," says the athlete, "if I had the time!"

"I, if I had the time," says the chemistry student, "would master the valence table and become head of my class."

"There's no limit to what I could do," says everyone, "if I only had the time!"

Waiting for time to start and carry on a program of self-improvement never gets the program started. Seldom, if ever, does the time "click" with the opportunity. Practically always, the opportunity comes when there is least time. No opportunity ever loomed up and said, "Here I am! Are you ready for me?"

Fortunately for mankind, not all human action is reduced to this sad lament. Fortunately there have been, and are, men who somehow find time to study and prepare. As a result, we now enjoy common comforts things which would otherwise be luxuries, or not exist. Men whose perseverance and persistence made them possible—Marconi and his wireless, Watt and the steam engine, Edison and the electric light, Wright and the airplane, Morse and the telegraph, Bell and the telephone, and countless others with their contributions to human advance—such men did not succeed by waiting for time!

Alumni Reports

The following items locate those from the class of 1947.

Those attending the University of Maine are: Richard Day, George Cole, Wayne Allen, Charles Boutot, Joyce Chipman, Lloyd Dickson, Randall Foster, David Gilmour, Jack Hawley, Robert Higgins, Robert Judkins, Shirley Lang, Jackie Marfarlane, Millard Moors, Sterling Pierce, Gene Van, and Jack Libby.

Myra Stickney is attending Colby College.

Betsy Grandin and Betsy Norton are attending Eridcott Junior College.

Carrie Angevine is employed by the New England Tel. and Tel., Lewiston, Maine.

Robert Awde will enter Burdett Business College in February.

Martha Waterhouse, Van Durham, Nancy Barnard, and Margaret Davis are attending Westbrook Junior College.

Isabel Bennett is attending Russell Sage College, New York.

Constance Beeken is attending Wesleyan College, Ohio.

John Blackadar was married during the summer. He is now attending Baldwin-Wallace, Berea, Ohio. Amy Penner is also attending Baldwin-Wallace College.

Janice Bowman is attending Radcliffe College.

Marilyn Boyker is attending Boston University.

Richard Briggs, Stanley Cole, and Francis McGlynn are attending Tufts Medical School.

John Brown is employed by his father at the Bethel Citizen Office.

Mary Christie is attending the University of New Hampshire.

Larry Clement is attending the University of Michigan.

Ann Libby is attending Trinity College, Washington, D. C.

Ted Logan is attending Babson Institute.

Lee Nary is employed by the Bethel Inn.

Janet Palmer is in training at the Maine Eye and Ear Infirmary, Portland, Maine.

Robert Parsons is at Edward Little High taking a post-graduate course.

David Patrick is attending the University of Vermont.

Joanna Perkins is attending Holyoke College.

Rebecca Philbrick will enter the C. M. G. Hospital, Lewiston, Maine, in January.

Nina Pierce is attending Pelletiers, Beauty Culture School.

Lewiston, Maine. Her engagement to Warren Hayes was announced during the summer.

Mary Plumer is attending St. Lawrence University, Canton, New York.

Charles Pudvah was married during the summer. He is attending the University of Vermont.

The engagement of Donald Walker and Ariene Fetter was announced in August.

Fenton Robertson is studying tree surgery in Connecticut.

James Stafford is attending the Leland Powers School, Boston, Mass.

Barbara Stearns '47 is engaged to Howard Enman, from Albany.

Frances Vinton '47 is attending Wheaton College, Norton, Mass.

Irene Wight '47 is attending Gorham State Teachers College.

Robert Chase is employed by the Oxford Paper Mill, Rumford, Maine.

Roy Lurvey is employed by the Diamond Match Co., Dixfield, Maine.

Tracy Stowell is attending Traphagen, a dress designing school in New York City.

Walter Conners is attending Middlebury College.

Russell Cram and Roderick Giles are attending the Maine Maritime Academy, Castine, Maine.

Joyce Cummings was married to Ellsworth Hathaway during the summer. They are residing at Locke Mills.

Errol Donahue is attending the Auburn Maine School of Commerce.

Barbara Galbraith is attending Pembroke College, Providence, Rhode Island.

Roberta Gibson is employed as a secretary for Wood and Heel Company, Norway, Maine.

Randall Gilbert is employed at West Bethel, Maine.

Norma Hunt is employed at Bethel Theater.

John Howland is at Gould this year taking a P. G. Course.

Dorothy Judkins is attending Farmington State Teachers College.

Jeanne Crooker is modeling for Conover in New York.

UNDER THE CUPOLA

This year got off to a good start at Gehring Hall, with all the usual furniture moving and closet-switching, and before long everybody was into the swing of things again. That sextet with the remote rooms, and the lights that don't go out, certainly liven up second hall!

And it seems that a certain room in the dorm likes to tune in on The Matinee in the wee, small hours — yes, room 22?

There seems to be a lot of World Series feeling within the portals of old G. A.; don't take it so seriously, Mister Bowhay—the Yanks may lose next year!

Why is it that all the boys came into the dining room the other night with their thumbs hooked under their lapels? They looked sharp, anyway. And why shouldn't they — its comfortable that way, isn't it, Mr Oakes?

But all in all, it has been very peaceful to date. One night the girls were awakened (or merely startled) by the fire bell, summoning groggy Gehringites to some slippers, and make a mad dash for the stairs. This year something new was added—the kids streamed down onto the field, where they made like track men; incidentally, before the weather got too cold, a lot of the kids employed the track for constitutional after supper. Was it exercise you wanted, girls?

Everyone glad to be back at school? It would hardly seem that way, judging from the groans we hear at various favorite hangouts. Confidentially, though, all, that is, most all, are glad to be back, I think. Imagine the disappointment of being deprived of the enjoyable hours spent in Latin and American History! Oh, horrors! Seriously, though, Gould's a pretty good place considering all. I wonder just how many of us would stay away from choice.

Has anyone secured the particulars, concerning Sunday night, September 28th? We understand the CYP Club initiated some new members—and how!

A number of the boys in Holden Hall were seen one afternoon with rather shaggy haircuts. It seems that there was a new barber shop in business that only trimmed the edges. The villains were of such great skill that they didn't have to use a bowl. Their scissors looked as if they had been used to trim a tin roof. Consequently, the victims soon found their way to the real barber uptown.

The store run last year by Gilesburg and Coleslaw is now under new management. The Senator from West Poland, Bert "Shaky" Fernald, and his associate, Mark Rines, have entered into the warm tonic and stale cookie business. They claim that they make money; but, the profits, it is rumored, disappear into their own stomachs.

Every afternoon there comes from one of the basement rooms a scintillating rhythm that really "sends" one. This small orchestra is composed of a trombone, slightly used, trumpet, and a set of thumping drums. (Jam!) Session!

If some future class is looking for a class present, it might consider a couple of good McIntosh scions for the apple tree in back of the girls' dorm. All the gym classes visit it every day, and the apples are in a minute quantity now. But McIntosh are so much better than natural fruit!

OUTSTANDING AMONG US

Louis Alfred Wood was born in the outskirts of New York, in Rockville Center, Long Island, on April 15, 1930. Upon the death of his father in 1933, he came to Lisbon Falls, Maine, to live with his grandparents, Mr. and Mrs. L. A. Jack.

In Lisbon Falls, Woody attended public school and took his Freshman year of high school. Here he was active in football and baseball, winning his letter in the latter.

In 1945 he went to Lisbon Center to live with his mother and stepfather, Mr. James N. Marshall, superintendent of the Farnsworth-Cowan Corp. mill there. Mr. Marshall is the father of Jeanne, Jack, and Dick Marshall, all outstanding at Gould. Louis came to Gould as a sophomore in 1945. He was elected Secretary of the class of '48 and was very active in football, basketball, and baseball. He won his letter in baseball and was elected Captain for his Junior year.

During his Junior year, Louis was again out for football, basketball, and baseball. This time earning his "G" in all three sports. Again his classmates elected him Secretary of the class. He was also vice-president of the Student Council.

This year Woody is President of the Student Council and is again among Coach Scott's eleven. He will be among the nuclei of the basketball and diamond squads.

During his stay at Gould he has maintained honor-roll ranks and was awarded membership in the National Honor Society in the spring of 1947. He has joined the Science Club this year. He has already been accepted to Bowdoin College, where he will work for an AB degree. During his summers he plays baseball for the Lisbon Braves.

His presence has been felt at Gould during his years here and he will certainly be outstanding in whatever he attempts in the years to come.

GOULD ACADEMY

OCTOBER 15, 1947

Huskies Top Livermore Falls

GOULD TAKES OPENER AGAINST LIVERMORE

The Gould Academy Huskies scored twice in the second period to defeat a scrappy Livermore Falls High School football team 14-6, on Saturday, Sept. 20, 1947.

Jerry Davis scored on a sixty yard broken field run after a fake kick and Captain Dave Bennett blocked a punt which Croteau recovered in the end zone. The visitors also scored in the second period on a 36 yard aerial from Hebert to Lavadiere.

The Huskies played with determination through most of the game with Dave Bennett's superb tackling on the defense and Jerry Davis's broken field running on the defense standing out. Gould's defense seemed weak at times, Livermore's more powerful ground attack piling up two hundred and thirty yards for ten first downs. However, Gould managed to stave off all Livermore scoring attempts after the second period.

The visitors presented a hard hitting and well coached team with Hebert's passing and Lavadiere's and Pineau's running giving the crowd many thrills.

Referee: Topping. Umpire: Petro. Head linesman: Storey. Time: Four 12's.

MEXICO 7—GOULD 0

Oct. 4—The Gould gridsters met their second defeat of the season at the hands of Mexico, by the score of seven to nothing, at Hosmer Field, Rumford. The Pintos scored their only touchdown on a first period Bob Whytock to Bene Roy pass, and gained the extra point by a Whytock aerial to Swan. The two teams were quite evenly matched on the ground, but Mexico's passing game was far superior to Gould's, the Pintos completing seven out of nine passes, while the Huskies completed only one out of seven.

This year's undefeated Mexico team was able to break the jinx that has kept previous Mexico footballers from defeating Gould for several years. Whytock ran and passed well for the Pintos, while Capt. Dave Bennett, Ted Young, and Dick Ireland played well in a losing cause. Two busloads of Gould Academy students were on hand to cheer the team

LYNDONVILLE TAKES HUSKIES 13-0

Lyndon Institute tripped a hard fighting Gould team 13-0, at Lyndonville on Sept. 28. Gould had the edge in statistics and many times was on the verge of scoring. However, the Lyndon defense held and Gould was unable to hit the scoring column.

Lyndon's attack was led by Prin who scampered 55 yards to a touchdown in the second period and made a great run of 95 yards from his own goal line in the 2nd half.

Captain Bennett and Jerry Davis played well for Gould but the team was unable to crack Lyndon's defense.

Gould Wins Meet

GOULD ACADEMY TAKES ANDOVER 29-32

The Gould Academy cross country team started the season off in excellent stride by winning the opener with Andover 29-32. Little Andover stepped into the picture by capturing the first two places but as a result of a poorly balanced team the results were different. The winning time was 15 minutes, 7 seconds for the narrow two mile course, which was mostly a sinuous path through the woods. Stinchfield led the Gould trackmen by taking the third place.

1, Andover; 2, Andover; 3, Stinchfield (G); 4, Jordan (G); 5, Andover; 6, Hickox (G); 7, Hertell (G); 8, Andover; 9, Buck (G); 10-11-12-13-14-15 by Gould; 16 by Andover.

WINTER SPORTS OUTLINE

Although football and cross country have only just begun, it won't be long before winter sports will be coming along.

This year, as in other years, recreational ski classes will be held for those who don't go out for the team, and for the girls. They will be conducted by Mr. Myers and Miss Stallwood. For those who join the Outing Club, there will be several trips to the mountains and probably a trip to Mt. Washington in the spring.

The ski team, coached by Mr. Richardson, looks forward to a good year. There will be several veterans returning, plus many new fellows who plan to come out. Some meets are already scheduled, including the New England Championship here on February 13th and 14th.

The ski jump has been repaired and some work done on the hill. Mr. Richardson has plans for improving the slope and for work on the cross country trail.

From the time the first snow falls until it melts away in the spring, there will be something doing in skiing. It looks like a great year ahead with a lot of fun for everyone who can brave the tumbles in the soft snow, the dizzy heights and the cold of the Maine air.
